AN INDEX TO 1969 ARTICLES IN WIRE & WIRE PRODUCTS

A Listing of Articles That Appeared in Volume 44 of Wire & Wire Products from January to December 1969 Inclusive

Abstratcts of technical papers from Wire Association Convention ....(Jan.) 52
Advanced cable technology aids switching of electron beams in world's largest accelerator ....(Sept.) 52
Aluminum uses grow in cold heading field (Aug.) 47
Anaconda designs mammoth dragline cable (Mar.) 71
An easy way to find the capacitance of concentric cable ....(Sept.) 50
by Karl H. Zimmerman
Analysis of the rigid frame flyer ....(Dec.) 49
by Ben Bravin
Asbestos insulation: where it stands today (Mar.) 42
Automotive quality standard tighten controls on screws ....(Aug.) 51
Bookbinder's wire goes musical ....(Aug.) 60
Chipless cold-heading of wire delivers high economies ....(Aug.) 56
by Robert G. Friedman
Cold formed parts production up, rejects down, with 303Se ....(Aug.) 69
Cold-warm heading sequence minimizes alloy scrap rate ....(July) 48
Color separation technique simplifies color metallography ....(July) 54
Combined compounding-extrusion system slashes wire-cable jacketing costs ....(Feb.) 49
by Laurence J. Collins, Jr.
Copper clad steel wire does rugged underwater job ....(Feb.) 78
Copper-titanium alloys for wire springs ...(Apr.) 41
by Shoichi Komura
Corrosion problems on silver-plated copper wire ....(May) 39
by Virgil R. Friebel
Elasticity moduli and Vicker's mardness of cold drawn brass wire ....(July) 55
by Anton F. Mohrnheim
Electric butt-welding of high carbon steel wire ....(June) 65
by James Stone
Exhibitors '70 (At Annual Convention) ....(Oct.) 124
Filtered synthetic drawing oil improves aluminum conductor for insulated cable ....(June) 41
by Alfred L. Rosener, Jr. and Joseph C. Carriero
Fan guards formed from wire yield numerous advantages ....(Feb.) 57
by Herbert Chase
Flexible design feature of annealing furnace permits use for heavy coils and bar ....(July) 44
by R. B. Smith
Forecast '70
(Key Suppliers)
Form the part from wire ....(Aug.) 46
by Carlton J. Conrad
Fully automated setup expedites heating, forging of shafts ....(Apr.) 62
by Herbert Chase
Fume abaters clean exhaust from wire enamel curing ovens ....(July) 50
by W. J. Bethune and Lance J. Foord
"Get acquainted with William Mitchell of Ganged stapling heads trim labor cost ...(Aug.) 60
Syncro Machine" A Profile ....(Dec.) 45
by Laurence W. Collins, Jr.
Hardness and elasticity of cold drawn copper ....(June) 48
by Anton F. Mohrnheim
Henry Clinton: forward thinking Instrument builder .... (June) 58
by Laurence W. Collins, Jr.
High performance rod mill opened by U.S. Steel ....(May) 44
How does the numerically controlled torsion spring winder measure up? .... (Nov.) 46
by Ronald S. Ashworth
How painless acquisition helped a wire industry supplier ....(Jan.) 62
by Frank Chadwick
How platinum-rhodium wire is drawn ....(Apr.) 50
How they're doing ....(Jan.) 94
How to acquire needed equipment despite tight money ....(Oct.) 141
by Howard Grossman
How to build your own electronic counter for programmed winding machine control ....(Nov.) 54
by Donald R. Gavini and John A. Bellefeuille
How to control wire payoff tension from bunchers ....(May) 46
by Salvatore Bello
How to evaluate extrudability of PVC easily (June) 52
by M. Fred Marx, III
Hundreds attend cleveland meeting of the Wire Association's Ferrous Division ....(June) 56
Improved nail—Its Status, Part I ....(Feb.) 54
by Dr. E. George Stern and Arthur S. Tisch
Improved nail—Its Status, Part II ....(Mar.) 50
by Dr. E. George Stern and Arthur S. Tisch
Innovation in wire product design—fabricate, then coat with plastic ....(Nov.) 58
Inventory control system brings efficiencies to wire rope and cable producer ....(Oct.) 132
by O. W. Gebhardt
ITT Wire & Cable's Canadian production to be doubled as new plant revs up ....(Aug.) 64
Looking back in Wire & Wire Products (Jan.) **95;** (Feb.) 98
Lubricant additive boosts copper rod breakdown .... (Jan.) 61
Merrill Wright: Builder for tomorrow—and today ....(Apr.) 46
by Laurence W. Collins, Jr.
Metal behavior studied at low temperatures ....(May) 54
Metallurgists open new vista for aluminum (Mar.) 56
NEMA Standards for magnet wire
Part I—Mechanical tests ....(Mar.) 39
Part II—Chemical tests ....(Apr.) 52
Part III—Solderability ....(May) 56
New polyester pickling tanks can "take it" (Apr.) 59
Nickel alloys for 1969 performance come from a new straight-line mill at Driver Harris ....(July) 37
by Henry L. Kurtz and Samuel R. Marks, Jr.
Outlook **for '69 (Wire Mill)** ....(Jan.) 56
Penn Central's switch to mig welding increases shop production by 30% ....(Nov.) 67

Nickel alloys for 1969 performance come from a new straight-line mill at Driver Harris ....(July) 37
by Henry L. Kurtz and Samuel R. Marks, Jr.
Outlook **for '69 (Wire Mill)** ....(Jan.) 56
Penn Central's switch to mig welding increases shop production by 30% ....(Nov.) 67

Phelps Dodge opens new EVH test center . . (Sept.) 56
Problem solver design:
The mystery of the vibrating power cable . . (Nov.) 39
by Arthur E. Livingston and Aubrey T. Edwards
Product code for industrial fasteners . . . . . (Nov.) 62
Salute to Western Electric on its 100th Anniversary . . . . . (May) 48
by Laurence J. Collins, Jr.
Salvage valuable scrap—it's a backyard gold mine . . . . . (Aug.) 61
by Thomas Howe
Spring grinding—a precision operation . . . (Aug.) 57
Spring winder doubles as assembly machine . . . . . (Aug.) 52
Stackable containers add to efficiency for wire fabricator . . . . . (Feb.) 62
Stainless cloth protects sheet scrubber from downtime . . . . . (Aug.) 58
Steel manufacturer's agent talks . . . . . (Jan.) 43
by Laurence J. Collins, Jr.
Strong case for the galvanized wire milk crate . . . . . (Aug.) 55
Study low-cycle fatigue of wire rope . . . . . (Oct.) 127
Superconductor system proposed for underground ac transmission of power . . . . . (Oct.) 140
Superconductor—wound magnets—new and powerful tool for science and engineering (Sept.) 41
by Gerald C. Van Tilburg
Surface wiring assist-device speeds hookup of electronic switching modules . . . . . (Aug.) 62
by L. D. Sims and J. F. Fate
Sweetness of guitar is ground into music wire strings . . . . . (Feb.) 64
by Wayne A. Prescott
3-D die bore analysis—how good is it? . . (Nov.) 65
Time—dependent properties of alloy steel prestressing bar . . . . . (Sept.) 46
by M. A. Muspratt
Twisted wire and the brush business . . . . (Aug.) 50
by Walbridge Bailey
Ultrasonics aids wire drawing . . . . . (Dec.) 39
UL and the Insulated Wire Industry . . . . . (July) 52
by George Holderbaum
Vision and enterprise bring success to wire fabricator . . . . . (Mar.) 52
Voices via aluminum . . . . . (Feb.) 60
Ways and means of wire stripping . . . . . (Apr.) 56
What heat-treating method would you pick? (Oct.) 139
Why control cables of stainless give America's aircraft great reliability . . . . . (June) 62
Wire Association
Abstracts of Convention papers . . . . . (Jan.) 52
Ferrous Division Meeting, Cleveland . . . . (June) 56
Non-Ferrous Division Meeting, Montreal (July) 59
Electrical Conductor Division Meeting, Montreal . . . . . (July) 59
Technical Session Program in St. Louis . . (Oct.) 124
Wire forms edge up in high production . . . . (Aug.) 43
by Herbert Chase
Wire spring doubles as clutch member . . . . (Aug.) 54
Wire to weapon—wire and the M 406 grenade . . . . . (Mar.) 54
Wiring the Vigilante . . . . . (Oct.) 136
by Laurence W. Collins, Jr.

Cross References for Index to Articles for 1969, Issues

A

Alloy steel bar for prestressing . . . . . (Sept.) 46
Aluminum conductor telephone cables . . . . . (Feb.) 60
Aluminum opens new vistas for metallurgists . . . . . (Mar.) 56
Annealing furnace for heavy coils and bar . . (July) 44
Assembling, using spring winder . . . . . (Aug.) 52

B

Bar annealing furnace, flexible . . . . . (July) 44
Bar properties for pre-stressed concrete . . . (Sept.) 46
Bore, die, analysis . . . . . (Nov.) 65
Brass wire hardness . . . . . (July) 55
Brush wire, twisted . . . . . (Aug.) 50
Buncher wire tension control . . . . . (May) 46
Butt welding H.C. steel . . . . . (June) 65

C

Cable capacitance, to find . . . . . (Sept.) 50
Cable for big dragline . . . . . (Mar.) 71
Cable jacketing costs cut by new compounding-extrusion process . . . . . (Feb.) 49
Cable technology for accelerators . . . . . (Sept.) 52
Cable test center for EHV . . . . . (Sept.) 56
Cable vibration solution . . . . . (Nov.) 37
Cables, A1 conductor for telephones . . . . . (Feb.) 60
Cables, control, for aircraft . . . . . (June) 62
Clinton, Henry — a profile . . . . . (June) 58
Cloth, stainless, protects sheet scrubber . . (Feb.) 62
Coating with PE . . . . . (Dec.)
Cold drawn copper hardness . . . . . (June) 48
Cold heading of aluminum grows . . . . . (Aug.) 47
Cold heading wire without chips . . . . . (Aug.) 56
Containers, stackable . . . . . (Feb.) 62
Copper rod drawing improved by additive . (Jan.) 61
Copper wire silver plated cuts corrosion . . . (May) 39
Counter for winding machines . . . . . (Nov.) 54

D

Die bore analysis . . . . . (Nov.) 65
Drawing oil improved by filtration . . . . . (June) 41
Drawing platinum-rhodium wire . . . . . (Apr.) 50
Driver-Harris' new straight line mill . . . . . (July) 37

E

EHV test center, Phelps Dodge's new . . . . (Sept.) 56
Electric power transmission . . . . . (Aug.) 140
Enameling system exhaust fume cleaning (July) 50
Extrudability of PVC evaluated . . . . . (June) 52
Extrusion-compounding system cuts costs . . (Feb.) 49

F

Fabricator succeeds through vision and enterprise . . . . . (Mar.) 52
Fastener code, industrial . . . . . (Nov.) 62
Fatigue of wire ropes . . . . . (Oct.) 127
Forging shafts automatically . . . . . (Apr.) 62
Forming grenade from wire . . . . . (Mar.) 54
Forms, wire, grow in volume . . . . . (Aug.) 43

G

Galvanized wire for wire milk crates . . . . (Aug.) 55
Grenade formed from wire . . . . . (Mar.) 54
Grinding spring ends . . . . . (Aug.) 57
Guitar strings, wire . . . . . (Feb.) 64

Carreiro, Joseph C.
Senior Proc. Eng., Kaiser Aluminum & Chemical Corp., Bristol, R.I.
Chadwick, Frank P.
Dir. of Mktg., Nopco Chemical Div. Diamond Shamrock Chemical Co., Newark, N.J.
Chase, Herbert
Consultant, Forest Hills, New York
Collins, Laurence J., Jr.
Man. Ed., Wire & Wire Products, New York, N.Y.
Conrad, Carleton E.
Pres., E .H. Titchener & Co., Binghamton, N.Y.

E

Edwards, Aubrey T.
Alcan Aluminum Laboratories, Montreal P.Q., Canada

F

Fate, J. F.
Western Electric Co., Columbus, Ohio
Foord, Lance J.
Mfg. Eng., Canadian General Electric Co. Ltd., Peterborough, Canada
Friebel, Virgil R.
Staff Scientist, Ball Bros. Research Corp., Boulder, Col.
Friedman, Robert G.
Pres., National Machinery Co., Tiffin, O.

G

Gambrell, S. C., Jr.
College of Engineering, University of Alabama
Gavini, Donald R.
Western Electric Co., Columbus, Ohio
Gebhart, O. W.
The Okonite Co., Passaic, N.J.
Grossman, Howard
Liberty Leasing Co., Chicago, Illinois

H

Holderbaum, George
Service Eng., Underwriters' Laboratories, Inc., Chicago, Ill.
Howe, Thomas
Pur. Agt., Schwayder Chemical & Metallurgical Co., Detroit, Mich.

K

Komura, Shoichi
Chief, R&D Div., Sanko Senzai Kogyo Ltd., Koyoto, Japan
Kurtz, Henry L.
Asst. to V.P. — Ops., Driver Harris Co., Harrison, N.J.

L

Livingston, Arthur E.
Alcan Aluminum Laboratories, Montreal, P.Q., Canada

M

Marks, Samuel R., Jr.
Supt., Rod Mill
Driver-Harris Co., Somerset, N.J.

Marx, M. Fred, III
Devel. Eng., Western Electric Co. Baltimore, Md.

Mohrnheim, Anton F.
Prof. of Met., University of Rhode Island, Kingston, R.I.

Muspratt, M.A.
Dept. of C. E., Monash University, Melbourne, Australia

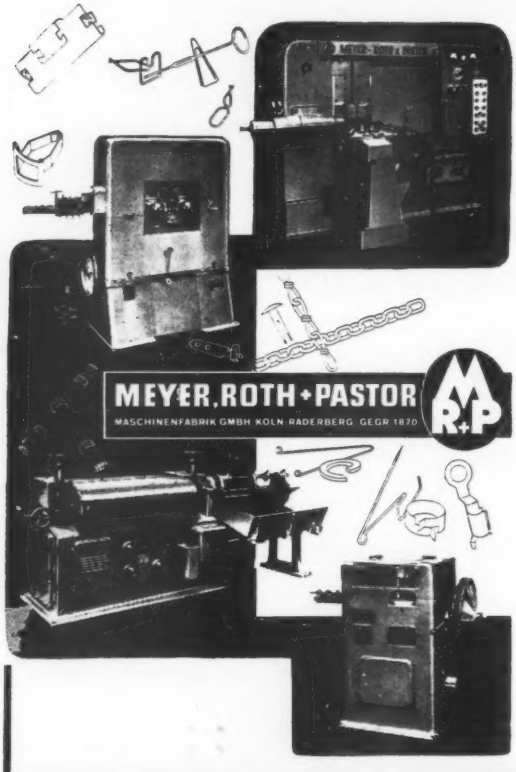
AUTOMATIC MACHINES FOR THE WIRE WORKING INDUSTRY



Wire Straightening and Cutting-off Machines
Electro-Wire Straightening and Cutting-off Machine
Reinforcement-Rods Straightening and Cutting Machine
Universal Multiple-Slide Forming Machines
for the mass production of articles from wire and strip
Combined Bending and Welding Machines

Automatic Machines for the Chain Making Industry:
Chain Bending Machines (mechanical resp. Hydraulical)
Chain Welding Machines (electro-mechanical resp. hydraulic control, butt and flash butt welding)
Chain Calibrating & Testing Machines

Hydraulic Butt Welder for Alloy Steel Hoist-Chain

Plant for making Stud Link Chain
Chain Twisting Machines; Knotted Chain Making Machines;
Mattress Chain Making Machine;
Single Jack Chain Making Machine

Plant for making Hinges

Special Automatic Machines for making

Asbestos tile rivets
Bifurcated rivets
Bottle Stopper parts
Bushes and rollers for link and roller chains
Chaplets
Clips
Cotter Pins
Dress hooks and eyes
Eye screws, screw hooks
Food tin keys
Formed wire components
Hooks
Key rings
Lead balls and shot
Lock springs
Repair links
Retaining rings
Rings
Rivets
Roofing nails
Snow hooks
Spring washers
Staples
Threaded studs
Welding rods
Wire ties for sacks and reinforcing mesh

and other mass-produced articles from wire and strip
